**CRS Report for Congress**

*Prepared for Members and Committees of Congress*

## Summary

This report provides background data on U.S. arms sales agreements with and deliveries to its major purchasers during *calendar years* 2003-2010, made through the U.S. Foreign Military Sales (FMS) program. In a series of data tables, it lists the total dollar values of U.S. government-to-government arms sales *agreements* with its top five purchasers, and the total dollar values of U.S. arms *deliveries* to those purchasers, in five specific regions of the world for three specific periods: 2003-2006, 2007-2010, and 2010 alone. In addition, the report provides data tables listing the total dollar values of U.S. government-to-government arms *agreements* with and *deliveries* to its top 10 purchasers *worldwide* for the periods 2003-2006, 2007-2010, and for 2010 alone.

This report is prepared in conjunction with CRS Report R42017, *Conventional Arms Transfers to Developing Nations, 2003-2010*, by Richard F. Grimmett. That annual report details both U.S. and foreign arms transfer activities globally and provides analysis of arms trade trends. The intent here is to complement that elaborate *worldwide* treatment of the international arms trade by focusing exclusively on U.S. arms sales and deliveries, and providing the names of the major U.S. arms customers, by region, together with the total dollar values of their arms purchases or deliveries for the calendar years 2003-2006, 2007-2010, and 2010.

## Introduction

This report provides background data on U.S. arms sales agreements with and deliveries to its major purchasers during calendar years 2003-2010. It provides the total dollar values of U.S. arms *agreements* with its top five purchasers in five specific regions of the world for the periods 2003-2006, 2007-2010, and for 2010. It also reports the total dollar values of U.S. arms *deliveries* to its top five purchasers in five specific regions for those same years. In addition, the report provides a listing of the total dollar values of U.S. arms agreements with and deliveries to its top 10 purchasers for the periods 2003-2006, 2007-2010, and for 2010. The data are official, unclassified, United States Defense Department figures compiled by the Defense Security Cooperation Agency (DSCA), unless otherwise indicated. The data have been restructured for this report by DSCA from a *fiscal year* format to a *calendar year* format. Thus a year in this report covers the period from January 1 to December 31, and *not* the fiscal year period from October 1 to September 30.<sup>1</sup>

## U.S. Agreements with Leading Purchasers, 2003-2010

The following regional tables (**Tables 1-5**) provide the total dollar values of all U.S. defense articles and defense services *sold* to the top five purchasers in each region indicated for the *calendar year(s)* noted. These values represent the total value of all government-to-government *agreements actually concluded* between the United States and the foreign purchaser under the Foreign Military Sales (FMS) program during the calendar year(s) indicated.<sup>2</sup> In **Table 6**, the total dollar values of all U.S. defense articles and defense services *sold* to the top 10 purchasers *worldwide* are provided for *calendar year* period noted. All totals are expressed as *current* U.S. dollars.

<sup>1</sup> The Defense Security Cooperation Agency (DSCA) publishes an annual volume providing these data in a *fiscal year* format. This publication is titled *Foreign Military Sales, Foreign Military Construction Sales, and Military Assistance Facts*. It provides detailed U.S. annual transactions with countries and international organizations for the most recent ten *fiscal* years, as of the date of publication, as well as aggregate data for these transactions since FY1950. See DSCA website for this data under DSCA Facts Book at <http://www.dsca.osd.mil/>. For detailed *worldwide* arms transfer data for U.S. and foreign suppliers and recipients, see CRS Report R42017, *Conventional Arms Transfers to Developing Nations, 2003-2010*, by Richard F. Grimmett.

<sup>2</sup> Current U.S. law and regulations do not require U.S. companies to provide, routinely and systematically, data on arms sales *agreements actually concluded* with foreign purchasers resulting from *commercial licenses authorized* by the U.S. State Department. Thus, the *agreement* data in the following tables *do not* include the values of U.S. licensed commercial sales.

## **U.S. Deliveries to Leading Purchasers, 2003-2010**

The following regional tables (**Tables 7-11**) provide the total dollar values of all U.S. defense articles and defense services *delivered* to the top five purchasers in each region indicated for the *calendar year(s)* noted for all deliveries under the U.S. Foreign Military Sales (FMS) program. These values represent the total value of all government-to-government *deliveries actually concluded* between the United States and the foreign purchaser under the FMS program during the *calendar year(s)* indicated. Commercial licensed deliveries totals are excluded, due to concerns regarding the accuracy of existing data.

In **Table 12**, the total dollar values of all U.S. defense articles and defense services *actually delivered* to the top 10 purchasers *worldwide* is provided. The *delivery* totals are for FMS deliveries concluded for the *calendar year(s)* noted.
